## LAND O' LAKES

One of the nation's largest agriculture cooperatives, Land O' Lakes was founded in St. Paul in 1921 by dairy farmers from creameries across the state. Seeking to create more dependable markets for dairy farmers, this action had a significant positive impact on the Minnesota agriculture and food sector that has grown many times larger today.

Not only are Land O' Lakes' brands recognized globally – from its signature butter and cheese products in the grocery dairy case to animal nutrition, seed and crop protection – the cooperative is a source of great pride for Minnesotans.

It's inspiring to realize that a small cooperative formed by dairy farmers in the 1920's has grown to become a global company – #232 on the Fortune 500 list of America's largest companies with nearly \$14 billion in revenue and 8,000 employees.

Many Twin Cities area employees owe their jobs to the foresight of Minnesota's early dairy farmers. Dairy has played a key role in the growth and expansion of Minnesota's agriculture and food sectors.

Location: Arden Hills

## LUNDS & BYERLYS

Operator of gourmet food and wine markets

Location: Edina
